

NEPA Environmental Assessments

Harbor has successfully guided clients through the sometimes complex NEPA process. We provide environmental services related to environmental assessments, such as Section 7 consultation, USACE permitting, and Section 110 and 106 of the National Historic Preservation Act. We understand the federal process and its potential implications on public and private land development.

- Programmatic and Categorical Exclusions
- Environmental Assessments/Impact Statements
- Scoping and Constraints Mapping
- Resources Evaluation and Associated Permitting
- Public Involvement
