## Site Planning & Development

## Site Planning & Development

Harbor provides all the professional disciplines necessary for successful land development, from large-scale master planned communities to individual site development. Development of land is unique to every project and can result in significant cost overruns without the input of a proactive design team. Harbor's experienced team is unique in its ability to analyze all facets of the project in a one-stop shop to minimize risks and bring you creative, smart solutions to meet your schedule and budget.
